RICHELIEU TO DEBUT PRACTICAL, STYLISH AND ACCESSIBLE INNOVATIONS AT KBC 2026

Design-forward hardware, storage, lighting and surfacing solutions redefine versatility for modern living

(Montreal, Canada, November 11, 2026) Richelieu will unveil a dynamic lineup of design-forward innovations at **Kitchen + Bath Canada 2026**, taking place November 11-12 in Toronto. Canada's premier kitchen and bath trade show, KBC brings together the designers, builders, showrooms, retailers, and brands shaping residential design across Canada. At Booth #400, Richelieu will showcase cutting-edge hardware systems, decorative panels and organizational solutions designed to shape the future of kitchen and bath design.

Versatility is a key focus for Richelieu's newest product introductions, with each innovation thoughtfully engineered to adapt to today's modern lifestyles.

Richelieu's new offerings deliver versatile storage solutions for the entire home alongside purpose-driven designs for individuals with reduced mobility, elevating comfort, efficiency, and quality of life.

ACCESSIBILITY INNOVATION

Through a new collaboration with Granberg, a renowned European manufacturer of accessible kitchen and living solutions, the company now offers the **VERTI 840** motorized lift for upper cabinets. VERTI 840 helps users avoid stretching and straining. With a simple touch, the smart electric height-adjustable lift system smoothly, silently and safely brings cabinet shelves down to countertop level. Designed to integrate seamlessly into virtually any kitchen, VERTI 840 exemplifies Richelieu's commitment to creating modern kitchens that are more ergonomic, flexible and universally accessible.

UpRiser™
by Vital Fjord

Richelieu's **Atipica** hardware, designed by Gianmarco Codato and Luciano Trevisiol

Finsa Duo panels

Cleaf Thermo-Structured Surface

UpRiser by Vital Fjord is a battery-operated toilet seat that gently lifts users vertically without tilting them forward, keeping their feet grounded throughout the movement. Named Bathroom Safety Product of the Year for 2026, it helps users maintain greater independence, confidence, and dignity in everyday bathroom routines. UpRiser's discreet, Scandinavian-inspired design integrates seamlessly into existing bathrooms without retrofitting, while stable construction, ergonomic support, and easy-to-clean surfaces preserve the comfort, beauty, and character of the bath.

DECORATIVE HARDWARE COLLECTIONS

Designed by Gianmarco Codato and Luciano Trevisiol, the **Atipica** designer hardware collection lets designers add character and identity to any project. Derived from the Italian word for "atypical," Atipica is defined by eccentric geometric shapes and textures. The collection was named "Best of KBIS" awards in the "Style Statement: Kitchen" category earlier this year.

Additional collections to discover include the customizable **U-Design**, with its clear acrylic tube that can be filled with confetti, beads, or other tiny treasures, as well as **Unicolor**, with its softly rounded corners and comfortable, unobtrusive grip.

PREMIUM DECORATIVE PANELS

Finsa Duo is a collection of high-quality textured panels, thoughtfully designed for both residential and commercial interiors. With a selection of 39 contemporary colors, natural woodgrains and linen textures, Finsa Duo offers the perfect balance of beauty, versatility and sustainability. Textile finishes such as Lino Esterio and Lino Nassau bring soft, sophisticated style to closets and open living spaces.

Cleaf brings innovation and style together through an Italian designed Thermo-Structured Surface that delivers exceptional performance and visual appeal. Crafted in Italy, this highly durable, deeply textured surface is engineered to resist scratching and withstand sun exposure without fading, ensuring lasting beauty in any environment.

Richelieu's ORBIX 360-degree rotating system for cabinets

CREATIVE STORAGE SOLUTIONS

ORBIX is a 360-degree rotating system allowing cabinets to reveal or conceal interiors with a simple gesture. Closed, ORBIX offers a sleek, refined façade. Open, it showcases contents with elegance and style. This freedom of movement inspires bold, creative designs where a single piece of furniture can serve multiple purposes. Elegant innovative and versatile, ORBIX redefines the cabinet experience.

The clean deign and smart functionality of **Optimiz-R** Metal Drawers elevate any closet, combining smooth accessibility with the refined sophistication of a showroom space.

The **TRIGON II** system maximizes corner cabinet storage with a smart two-tray design that makes awkward spaces more accessible. Designed for faceframe or frameless cabinetry, its 90-degree opening minimizes interference with adjacent cabinets and appliances. Adjustable, removable trays support up to 25 kg each, while an optional third tray provides additional storage for lighter items.

PULL-OUT SOLUTIONS

The **Liro** collection offers pull-out solutions for pantries and base cabinets. Designed for North American cabinet dimensions, Liro features **Magic Corner**, which turns blind corners into functional storage areas, as well as **Dispensa** and **Pinello** pull-outs. The collection comes in a trending anthracite finish and features minimal design for better space optimization. Glass or wood inserts can be added to match cabinet interiors or door finishes.

SMART SOLUTIONS FOR WASTE MANAGEMENT

Richelieu offers a wide range of innovative waste management solutions designed to maximize space, improve organization, and simplify everyday tasks. From pull-out waste and recycling centers to space-saving systems, these practical and versatile solutions integrate seamlessly into modern kitchens and cabinetry for added convenience and efficiency.

LIGHTING FOR EVERY ENVIRONMENT

Richelieu's **FlexyLED** systems provide seamless illumination for a refined look. The **FlexyLED AT6** is a flexible linear module with silicone-encapsulated technology, delivering smooth "dot-free" light in a compact profile for recessed or surface installation. The **FlexyLED SEH4** fits straight, curved, or circular grooves, integrating effortlessly into cabinetry and built-ins. Both systems are easy to install with pre-wired cables and deliver clean, minimalist lighting for any space.

FlexyLED systems from Richelieu offer refined illumination

MUST-HAVE CLOSET ACCESSORIES

Richelieu's **Satin Brass Collection** offers a cohesive design solution that unifies hardware, storage accessories, and lighting through a warm finish with a soft, sophisticated sheen. Extending seamlessly from pulls, knobs, hooks, shoe rails, belt and tie racks, and valet rods to closet rods, jewelry trays, drawer side panels, and integrated lighting, the collection creates visual continuity that guides the eye effortlessly from one element to the next.

Richelieu's Satin Brass Collection of closet accessories

The **Granberg Butler 732** wardrobe lifts transform the closet for enhanced accessibility. Raise and lower clothing with the push of a button, keeping your wardrobe organized and within easy reach while maximizing overhead closet space and allowing room for extra storage.

Richelieu continues to redefine modern living with thoughtfully-designed, revolutionary solutions. The company's commitment to quality, inclusivity, and forward-thinking design empowers homeowners, designers, architects and builders to transform interiors into functional, beautiful and enduring spaces.
