RICHELIEU BRINGS SMARTER HARDWARE AND INSTALLATION SOLUTIONS TO WINDOOR 2026

From high-performance sealants and insulation to innovative hardware, locking systems, and installation essentials, Richelieu highlights products that combine durability, security, and contemporary aesthetics

(Montreal, Canada, November 03, 2026) Richelieu Hardware will showcase a broad selection of products for window and door manufacturing, installation, and design at WinDoor 2026, taking place November 5-6 at the Palais de Congrès de Montréal. At Booth #201, visitors can explore solutions that combine reliable performance, enhanced security, installation efficiency, and contemporary aesthetics across residential and commercial applications.

WinDoor is Canada's premier event for the window and door industry, bringing together manufacturers, retailers, suppliers, and industry professionals from around the world. The event offers opportunities to explore the latest products, technologies, and equipment, gain insights into industry trends, attend educational sessions, forge valuable connections, and discover new opportunities for growth and collaboration.

The featured lineup includes high-performance sealants and insulation products, precision window hardware, electronic locking systems, glass door handles and locksets, durable hinges, and specialized installation hardware. Together these solutions address the evolving needs of fenestration professionals, offering practical innovations designed to support durability, ease of use, and refined design.

FEATURED PRODUCTS INCLUDE:

Richelieu's premium selection of window and door sealants improve insulation, enhance energy efficiency and protect against moisture. Titebond® WeatherMaster ULTIMATE MP is a high-adhesion hybrid sealant that is neutral-cure, VOC-compliant, weather- and UV-resistant, and paintable with water-based latex paint just two hours after application.

Offering excellent filling and sealing, plus thermal and acoustic insulation, Soudal Flexifoam is a low-expansion, one-component polyurethane foam designed to accommodate significant movement without cracking. It delivers strong adhesion to most substrates, reliable dimensional stability, and precise application with a foam gun system.

Titebond® WeatherMaster ULTIMATE MP

Richelieu's Kitchen and Bathroom Silicone Sealant is a 100-percent silicone, medium moduled, single-component, non-sag acetoxy caulking material. Specifically designed to resist mold and mildew when fully cured, this sealant gives excellent adhesion to ceramics, tile board, solid surfaces, laminated plastic, and most acrylics.

Kitchen and Bath Silicone Sealant

NovaFlex Multipurpose Adhesive Sealant delivers primer-less adhesion to most common construction substrates. This non-corrosive, single-component, oxime-cured silicone sealant is ideal for window and door manufacturing, where it is commonly used for glazing and structural back-bedding.

NovaFlex Multipurpose Adhesive Sealant

Maxim® HP Hinge

Designed for casement windows, **Richelieu's** Maxim® HP Hinge supports loads up to 200 lbs. while reducing operating friction for smooth, effortless performance.

The Amesbury Truth Attraction™ Handle and Cover combines sleek styling with smooth, effortless operation for casement and awning windows. Patented technology guides the handle into a natural resting position, while enhanced rotational stability and an extended handle improve ease of use.

Amesbury Truth Attraction™ Casement Handle

With a timeless look and practical performance, the Amesbury Truth Hardware Collection enhances zinc or composite substrates. Available in matte or gloss black, the hardware offers sleek and versatile style to window applications.

Sentry Hinged Patio Door Handle from the Amesbury Truth Hardware Collection

From Richelieu, the LEHMANN Electronic Lock with Digital Keypad – TA03 combines keyless convenience with reliable security. Featuring a scratch-resistant keypad with soft-touch buttons for easy code entry, it offers simple configuration and management through the intuitive LEHMANN Config app.

Electronic Lock for Swing and Sliding Glass Doors

The Electronic Lock for Swing and Sliding Glass Doors delivers convenient, battery-powered keyless entry with no wiring required. Offering four access options—Bluetooth via smartphone app, fingerprint recognition, numerical code, and FOB badge—it combines easy installation with versatile security.

Richelieu

Combining sleek, modern styling with versatility for commercial push and pull glass doors, the 1 ¼" (32 mm) Diameter Back-to-Back Ladder Handle is available in multiple lengths. Four stylish finishes include Black Stainless Steel, Matte Black, Stainless Steel, and Polished Stainless Steel

Back-to-Back Ladder Handle

The Onward 4-inch Stainless Steel Exterior Combination Butt Hinge with 2 Ball Bearings delivers durable, reliable performance for exterior doors, even in extreme weather conditions. Featuring stainless steel leaves, pin, and caps, it offers excellent resistance to rust and corrosion.

Stainless Steel Exterior Combination Butt Hinges

Heavy-Duty Center Lock

Richelieu's Heavy-Duty Center Lock—Office Function provides secure, reliable access control for glass doors. Featuring lever operation from either side, an auxiliary latchbolt for added security, and key access from the outside when locked, it's available in matte black or stainless steel for left- or right-hand openings.

The Donington Series Straight Levers combine elegant styling with durable performance. Available in flat black or satin nickel, these versatile locksets feature galvanized all-steel interior mechanisms for lasting strength, easy maintenance, and reliable operation.

The M-Lock Glass Door Passage Set with Handles combines sleek, minimalist design with quiet magnetic operation. At just 31 mm thick this glass-mounted lockset includes a key, thumb turn, and handles for a streamlined, contemporary look.

Donington Series Straight Levers

The **Hingeunirepal Deluxe Hinge Kits** provide a quick, easy solution for restoring the operation of commercial doors when existing hardware fails. Designed for doors up to 500 lbs., the adjustable hinge pin allows for convenient height adjustments without removing the hinges.

Durable metal screws designed for window and door installation

Richelieu offers a variety of durable metal screws specifically designed for window and door installation. The **Stainless Steel Metal Screw, Flat Head, Square Drive, Self-Tapping Thread, Type A Point** is constructed with 18-8 stainless steel for durability, rust resistance, and performance. It can be used in wood, plastic, metal, and other applications without pre-drilling. The **Zinc Plated Metal Screw, Hex Head with Washer, Self-tapping Thread, Type A Point** is designed for power and convenience. It offers a secure hold and grip, plus efficient drilling and fastening without a pilot hole. And the **Zinc Plated Metal Screw, Wafer Head, Square Drive, Self-tapping Thread, Self-drilling Point with Reamer** is ideal for fastening wood to metal with ease. With enhanced durability and smooth performance, it is easily installed with a square driver.
